

Radiology Report (3598449-15/Radiographs Only - Priority)**Completed 12/26/17 04:22 PM****Patient Name:** Lucy Love (7604)

Requesting Doctor: Matthew Bettencourt, DVM	Species: Canine	Age: 0Yr 0Mo
Gender: Female	Breed: Labrador Retriever	Weight: 0.00 Lb

HISTORY: Priority

No physical complaints per owner. Elbow evaluation for breeding purposes only. This is a 2 year old female lab.ret. weighing 64.9#

ELBOWS December 21, 2017: 2 lateral flexed images are available for review.

FINDINGS: The medial coronoid processes are well-defined bilaterally. The anconeal processes are smooth and congruent, with no evidence of fragmentation. No evidence of osteoarthritis or elbow dysplasia is identified. The surrounding soft tissues are normal.

CONCLUSIONS: 1. Normal elbows.

For questions, the best and fastest way to get in touch with me directly is to email me at Layla-Shaikh@idexx.com. Feedback or follow-up on patients is always appreciated! For URGENT questions, please call 1-800-726-1212 and speak to the first available radiologist if I am not available. This contact information is for veterinarian use only. Thank you.

Layla Shaikh, VMD, DACVR
